INTRO

The Guilds of the Nexus are various factions of violent and deranged outlaws that wage eternal guild wars on the streets of the Nexus. These guilds are joined by mercenaries which are not bound to any particular guild, and which fight for anyone that can provide riches or a worthy cause.

SPECIAL RULES

Impale: Against non-Hero units with Tough(3) or more, this weapon gets Deadly(+3).
Melee Evasion Aura: This model and up to 3 friendly units picked before the start of the game get Melee Evasion. If this model is killed, picked models that are deployed lose the rule. This effect lasts until the first wave of reinforcements is deployed.
Precision Fighter Aura: This model and up to 3 friendly units picked before the start of the game get +1 to hit rolls in melee. If this model is killed, picked models that are deployed lose the rule. This effect lasts until the first wave of reinforcements is deployed.
Quick Shot Aura: This model and up to 3 friendly units picked before the start of the game get Quick Shot. If this model is killed, picked models that are deployed lose the rule. This effect lasts until the first wave of reinforcements is deployed.
Re-Deployment: After all other units are deployed (including non-Ambush units that were set aside), you may remove up to two friendly units from the table and deploy them again. Players alternate in placing Re-Deployment units, starting with the player that activates next.
Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.
Savage: When attacking, unmodified results of 6 to hit deal 1 extra hit (only the original hit counts as a 6 for special rules).
Savage Boost Aura: This model and up to 3 friendly units picked before the start of the game get Savage Boost. If this model is killed, picked models that are deployed lose the rule. This effect lasts until the first wave of reinforcements is deployed.
