INTRO

The Guilds of the Nexus are various factions of violent and deranged outlaws that wage eternal guild wars on the streets of the Nexus. These guilds are joined by mercenaries which are not bound to any particular guild, and which fight for anyone that can provide riches or a worthy cause.

SPECIAL RULES

Bounding: When this unit is activated, you may place all models with this rule in it anywhere fully within D3+1" of their position.
Counter-Attack: Strikes first when charged.
Impale: Against non-Hero units with Tough(3) or more, this weapon gets Deadly(+3).
Melee Evasion: Enemies get -1 to hit rolls in melee when attacking units where all models have this rule.
Melee Evasion Aura: This model and up to 3 nearest friendly units picked before the start of the game get Melee Evasion. If this model is killed, picked models that are deployed lose the rule.
Piercing Shooting Mark: Once per activation, before attacking, pick up to 4 enemy units within 18", which friendly units gets AP(+1) when shooting against once (next time the effect would apply).
Precision Fighter Aura: This model and up to 3 nearest friendly units picked before the start of the game get +1 to hit rolls in melee. If this model is killed, picked models that are deployed lose the rule.
Quick Shot Aura: This model and up to 3 nearest friendly units picked before the start of the game get Quick Shot. If this model is killed, picked models that are deployed lose the rule.
Re-Deployment: After all other units are deployed (including non-Ambush units that were set aside), you may remove up to two friendly units from the table and deploy them again. Players alternate in placing Re-Deployment units, starting with the player that activates next.
Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.
Savage: When attacking, unmodified results of 6 to hit deal 1 extra hit (only the original hit counts as a 6 for special rules).
Savage Boost Aura: This model and up to 3 nearest friendly units picked before the start of the game get Savage Boost. If this model is killed, picked models that are deployed lose the rule.
Speed Feat Aura: This model and up to 3 nearest friendly units picked before the start of the game get Speed Feat. If this model is killed, picked models that are deployed lose the rule.
Takedown Strike: Once per game, when this model attacks in melee, you may pick one model in the unit as its target, and make one attack at Quality 2+ with AP(2) and Deadly(3), which is resolved as if it's a unit of 1.

FURIOUS TRIBES ARMY SPELLS

Tribal Boost (1): Pick one friendly unit within 12", which gets Savage Boost once (next time the effect would apply).
