INTRO

Dark Elves are a faction of pirates and freebooters, who have cut themselves off from their homeland, and have learnt to tame the wild and monstrous beasts of their native isles through an alliance with the Snake-Elves. They are swift and skilled attackers, but their lack of armour leaves them vulnerable to counter attack.

The Dark Elves won their struggle for independence, but now, without a common enemy, there is nothing to keep them united. They must tread carefully with their new found freedom, as they risk either falling into lawlessness or tyranny if their delicate truces collapse.

BACKGROUND STORY

Before the High Elves arrived, the Dark Isles were only known through sailors' legends and tales, which spoke of the waters as dangerous and infested with sea beasts. High Elf sailors discovered the islands during their voyages, and soon found the islands were rich in spices and gold. The High Elven Kings sought out colonists to claim these once-mythical islands, but only the most daring and desperate Elves would venture out to the isles, since most ships sent to the isles were lost to the creatures beneath the waves. The colonists who arrived on the islands had to learn to survive independently, as shipments were often lost to the sea and many colonies were lost completely.

Those who did survive did so with the help of the Snake-Elves. The Snake-Elves had lived on the isles for centuries, and learnt how to tame many of the islands' creatures. The settlers developed close relations with these Snake-Elves, trading wealth and weapons from the mainland in exchange for the Snake-Elve's knowledge and skills. The High Elves took a more cautious approach, viewing the Snake-Elves with scorn and attempting to subdue the sea-beasts by force.

Despite the dangers of the Dark Isles, the Elven Kings and their merchants expected their share of profit from the colonies. Colonists resented paying taxes to the supply ships that often were lost at sea before they arrived, because as ships left port, heavy with the wealth of the islands, they became tempting targets. Many settlers took on a life of piracy, returning with wealth that otherwise would have been sent to the homelands. These pirates soon filled the moneyed class of the islands, overtaking the old nobility in wealth and power.

The colonists rejected the taxes imposed on them to fight the distant Havoc Wars, and many began to speak of independence, calling themselves Dark Elves. The High Elves then sent a diplomatic mission to negotiate with the colonists, only to have their diplomats slaughtered, and the High Elven navy was thoroughly defeated by a coalition of pirates and Snake-Elves using the monsters beneath the waves.

The Pirate Lords' ambitions have only grown since they won their independence, and they have begun to pillage along Tyria's coasts and through its Voidgates. Now it is unclear whether the Pirates' alliance will last, or if the fiercely independent Dark Elves will collapse into civil war.

How will you bring fortune to the Isles?

SPECIAL RULES

Ambush Aura: This model and its unit get Ambush.
Breath Attack: Once per activation, before attacking, roll one die. On a 2+ one enemy unit within 6" in line of sight takes 1 hit with Blast(3) and AP(1).
Harassing: Units where all models have this rule may move by up to 3" after shooting or being in melee.
Harassing Boost Aura: This model and its unit get Harassing Boost.
Lacerate: When attacking the target must re-roll unmodified Defense results of 6.
Melee Evasion: Enemies get -1 to hit rolls in melee when attacking units where all models have this rule.
Melee Shrouding Aura: This model and its unit get Melee Shrouding.
Melee Slayer: This model's melee weapons get AP(+2) against units where most models have Tough(3) or higher.
Piercing Assault Buff: Once per activation, before attacking, pick one friendly unit within 12", which gets Piercing Assault.
Precision Fighter Buff: Once per activation, before attacking, pick one friendly unit within 12", which gets +1 to hit rolls in melee once (next time the effect would apply).
Predator Fighter: For each unmodified roll of 6 to hit in melee, this model may roll +1 attack with that weapon. This rule doesn't apply to newly generated attacks.
Quick Shot Aura: This model and its unit get Quick Shot.
Rapid Charge Aura: This model and its unit moves +4" when using Charge actions.
Ravage(X): When this model attacks in melee, roll X dice. For each 6+ the target takes one wound.
Regenerative Strength: Place one marker on this model when it ignores a wound. When in melee, pick one of its weapons to get +X attacks, where X is the number of markers on it.
Retreating Strike: When this unit ends its move within 3" of enemy units after being in melee, pick one of them and roll as many dice as models with this rule in this unit, or as many dice as its Tough value (for single-model units). For each 6+ the target takes one wound.
