INTRO

The Vampiric Undead are legions of monsters and their mortal servants led by powerful vampire Lords. These lords use their dark magic to raise the dead, and lead them to battle alongside their mortal servants.

The Vampire Lords are members of the nobility from the western steppes who embraced necromancy after they were abandoned by the Empire during the Havoc Wars. Once they understood the secret of immortality, they attempted to betray their patrons and were cursed with undeath. This curse has only made the Vampire Lords more bitter and cruel as they rule brutally over their fearful subjects.

ABOUT OPR

OPR (**www.onepagerules.com**) is the home of many free games which are designed to be fast to learn and easy to play.

This project was made by gamers for gamers and it can only exist thanks to the support of our awesome community.

Thank you for playing!

BACKGROUND STORY

The Vampiric Undead originate from the western reaches of the Empire. Their lands were divided into a handful of counties made up of small villages scattered over the Western Steppes, beyond the Dwarven Mountains. Far from the centre of the Old Empire, these lands were undeveloped and often overlooked, raided by nomadic Ogres and other neighbours.

When the Havoc Wars began, most of the armies and nobility of the Steppes were summoned, along with the rest of the Imperial vassals, to defend the Empire's northern borders. The Steppe was left largely unguarded, and it was soon overrun by marauding neighbours and outlaws. Desperate to defend their lands, the remaining nobles began to listen to the promises of an exiled wizard, known as the Great Necromancer. This wizard offered these nobles the armies that they needed, in exchange for an oath of loyalty to his mysterious patrons. Those nobles who accepted his offer would see their enemies driven out and their graveyards emptied, as the wizard raised the dead to fight.

The Great Necromancer introduced the nobles to his patrons, strange and lifeless beings from another plane. These patrons offered the nobility the secret of immortality if the nobles would give them a piece of Tyria to live in. The nobles eagerly accepted the pact and began using their undead armies to conquer their neighbours to carve out a new realm. Yet, when the time came to complete the deal, they betrayed the wizard and his patrons, severing the link between the planes, and stealing the knowledge for themselves.

They eagerly attempted the ritual, sacrificing the wizard in the process. However, the ritual did not result in their immortality, but instead turned them into the first generation of Tyrian Vampires. The Vampiric Nobles, lacking a clear leader, shifted the blame on each other for the ritual's failure, and soon fought for dominance over the rest. These Vampires viewed their mortal subjects as mere cattle, useful only as nourishment and a means to create more undead.

When the Rift opened, some whispered that the Great Necromancer's old patrons had returned, seeking revenge. Meanwhile, from the east, one of the Emperor's own children arrived in the steppes as an undead immortal. Desperate and weary of their endless internal conflicts, many Vampires have submitted to him, hoping that they might unite together to protect themselves and expand their realms once more.

How will you harness your power over death itself?

SPECIAL RULES

Cursed Undead: When a unit where all models have this rule takes wounds, roll one die for each. On a 6+ it is ignored.
Cursed Undead Boost Buff: Once per activation, before attacking, pick up to 4 friendly units within 12", which gets Cursed Undead Boost once (next time the effect would apply).
Infiltrate: Counts as having Ambush, but may be deployed up to 1" away from enemy units.
Mind Control: Once per activation, before attacking, pick up to 4 enemy units within 18", which must take a morale test. If failed you may move it by up to 6" in a straight line in any direction.
No Retreat Aura: This model and up to 3 friendly units picked before the start of the game get No Retreat. If this model is killed, picked models that are deployed lose the rule.
Piercing Hunter Aura: This model and up to 3 friendly units picked before the start of the game get Piercing Hunter. If this model is killed, picked models that are deployed lose the rule.
Ravage(X): When this model attacks in melee, roll X dice. For each 6+ the target takes one wound.
Reanimation Aura: This model and up to 3 friendly units picked before the start of the game get Reanimation. If this model is killed, picked models that are deployed lose the rule.
Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.
Scout Aura: This model and up to 3 friendly units picked before the start of the game get Scout. If this model is killed, picked models that are deployed lose the rule.
Sever: Against units where most models have Defense 2+ to Defense 4+, this weapon gets AP(+1).
Shred: On unmodified results of 1 to block hits, this weapon deals 1 extra wound.
Shred in Melee Aura: This model and up to 3 friendly units picked before the start of the game get Shred in melee. If this model is killed, picked models that are deployed lose the rule.
Stealth Aura: This model and up to 3 friendly units picked before the start of the game get Stealth. If this model is killed, picked models that are deployed lose the rule.

VAMPIRIC UNDEAD ARMY SPELLS

Vigorous Return (1): Pick one friendly unit within 12", which gets Cursed Undead Boost once (next time the effect would apply).
Cursed Strike (1): Pick one enemy unit within

Vampire Master [1] - 60 pts
Quality 3+ Defense 3+

SPECIAL RULES

Cursed Undead: When a unit where all models have this rule takes wounds, roll one die for each. On a 6+ it is ignored.
Fast Aura: This model and up to 3 friendly units picked before the start of the game moves +2" when using Advance actions and +4" when using Rush/Charge actions. If this model is killed, picked models that are deployed lose the rule.
Instinctive: When this model is activated, if it is able to shoot/charge an enemy unit, then it must immediately attack the closest valid target and gets +1 to hit rolls for that attack.
Ravage(X): When this model attacks in melee, roll X dice. For each 6+ the target takes one wound.
Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.
Sever: Against units where most models have Defense 2+ to Defense 4+, this weapon gets AP(+1).
Surge: On unmodified results of 6 to hit, this weapon deals 1 extra hits (only the original hit counts as a 6 for special rules).

VAMPIRIC UNDEAD ARMY SPELLS

Vigorous Return (1): Pick one friendly unit within 12", which gets Cursed Undead Boost once (next time the effect would apply).
Cursed Strike (1): Pick one enemy unit within 6", which takes 3 hits with Sever.
Seductive Invocation (2): Pick up to two enemy units within 18", which must take a morale test. If failed you may move it by up to 6" in a straight line in any direction.
Spectral Wind (2): Pick up to two enemy units within 12", which takes 2 hits with AP(2).
Dance of Death (3): Pick up to three friendly units within 12", which get Teleport once (next time the effect would apply).
Deadly Gaze (3): Pick up to three enemy units within 6", which takes 1 hits with AP(2) and Deadly(3).
