INTRO

The Gangs of New Eden are various factions of violent and deranged outlaws that wage eternal gang wars on the streets of New Eden. These gangs are joined by mercenaries which are not bound to any particular gang, and which fight for anyone that can provide riches or a worthy cause.

SPECIAL RULES

Fearless Aura: This model and up to 3 friendly units picked before the start of the game get Fearless. If this model is killed, picked models that are deployed lose the rule.
Fragment: Ignores Cover, and against units where most models have Defense 2+ to Defense 4+, this weapon gets AP(+1).
Precision Debuff: Once per activation, before attacking, pick up to 4 enemy units within 18", which gets -1 to hit rolls when attacking once (next time the effect would apply).
Precision Target(X): Once per game, during this model's activation, pick one enemy unit within 36" and in line of sight of it, and place X markers on it. Friendly units get +X to hit rolls when attacking it.
Repel Ambushers: Enemy units using Ambush must be set up over 12" away from this model's unit.
Shadow Operative: Enemies get -4" range when trying to shoot at units where all models have this rule, and -2" movement when trying to charge units where all models have this rule.
Shadow Operative Boost Aura: This model and up to 3 friendly units picked before the start of the game get Shadow Operative Boost. If this model is killed, picked models that are deployed lose the rule.
Shred when Shooting Aura: This model and up to 3 friendly units picked before the start of the game get Shred when shooting. If this model is killed, picked models that are deployed lose the rule.
Stealth Aura: This model and up to 3 friendly units picked before the start of the game get Stealth. If this model is killed, picked models that are deployed lose the rule.
Takedown Strike: Once per game, when this model attacks in melee, you may pick one model in the unit as its target, and make one attack at Quality 2+ with AP(2) and Deadly(3), which is resolved as if it's a unit of 1.
Teleport: Once per activation, before attacking, place this model anywhere fully within 6" of its position.
